

B&B WINS THIRD CONTRACT WITH EDDIE STOBART

B&B Attachments, the UK's leading supplier of forklift attachments and the exclusive UK distributor of Kaup equipment, has been awarded the contract from Eddie Stobart to provide Kaup double pallet handlers for Crown, Cork & Seal's warehouse in Braunstone, Leicester which it manages on behalf of the company. The site is included within a third consecutive, five-year contract won by B&B Attachments from Eddie Stobart, making B&B Attachments the company's preferred attachment supplier with over 70 units now supplied to Eddie Stobart sites throughout the UK.

The flexibility and durability of Kaup Double Pallet Handlers enable transportation of single pallets or multiple pallets simultaneously.

The Kaup double pallet handlers have been fitted to eight out of nine Nissan three tonne JX compact LPG trucks supplied to Eddie Stobart by Translift Nissan for the 190,000 sq-ft site, used for the storage of empty food, and beverage cans - an average of 3500 pallet movements are carried out each day. The Kaup attachments provided by B&B have been chosen for their reliability, longevity and ability to operate on a 24/7 basis throughout the year.

Eddie Stobart has managed the warehousing and distribution of Crown, Cork & Seal's product for the past 13 years. The warehouse is directly linked to several production lines with the warehouse and distribution being an integral part of Crown, Cork & Seal's overall production process.

Kaup's Double Pallet Handlers can be quickly and easily altered to handle either single or pairs of palletised products. This flexibility enables Eddie Stobart to respond immediately to its daily manufacturing output and capacity on site.

"The attachments were specifically requested by Eddie Stobart Ltd, as we have fitted them on the majority of our forklift trucks throughout the UK", says Paul Marrow, Warehouse Operations Manager at Eddie Stobart. "We have found them to be both durable and reliable and they are backed by excellent customer service".

The Kaup attachments, supplied through B&B Attachments, have been specifically designed to transport several pallets or transport units simultaneously. The forks of the Multi Pallet Handlers can be moved together or spread apart as required ensuring the centre pick up of the load is guaranteed. Multi Pallet Handlers are indispensable for rational inter company transport where palletised goods have to be moved.

Eddie Stobart is Britain's largest independent haulage and distribution organisation with over 2,000 employees and an annual turnover in excess of £130 million. At the Braunstone site Eddie Stobart's warehousing operation is supported by Translift Nissan whose Nissan forklift trucks equals the durability and reliability of the Kaup double handler attachments.

Established for over 21 years, B&B Attachments is the UK's leading independent supplier of forklift truck attachments and masts. From its sites in Hungerford, West Berkshire and Cramlington, Northumberland the company services a client base that includes OEMs, forklift truck dealerships and end users.
